

Your website is ready.

Prepared by Dyrane Academy for Nonso · Agric Market, Lagos

See it live now: au-mosaic.vercel.app

Open it on your phone. Tap any product. It starts a WhatsApp chat, the way you already sell.

What already exists

Built from your Business Discovery answers: your full stock list as a browsable catalogue, pool construction and renovation pages, your story, the showroom details, and a page that turns the number one market complaint (mosaics falling off) into a reason to buy from you.

What launch adds

- **Your WhatsApp number.** behind every button, so enquiries land with you from day one.
- **Your real photos.** about 20 to 40 from your phone. Tiles, materials, finished pools.
- **Your domain and Google.** so people searching "mosaic tiles Lagos" find you.
- **Finished-pools gallery.** the trust engine for construction jobs.
- **The dashboard.** back office as its own phase: CRM, inventory, deliveries, warehouse.

What it does for the business

Customers already find you on Google, social media, and referrals. Today they land on nothing. After launch they land on a catalogue that starts a WhatsApp chat, the exact sale you already close every day. It also answers the repeated questions that drain your team's time.

Investment

Website build and launch	NGN 250,000
Domain (au-mosaic.shop) for the year. Hosting free.	USD 40
Business dashboard: CRM, inventory, deliveries, warehouse	NGN 500,000
Monthly care: updates, photos, changes (optional)	NGN 25,000 / month

Bare minimum to go live: NGN 250,000 plus the domain.

What we need from you

Your WhatsApp Business number, your Instagram handle, and the photos.
One afternoon of your time. We handle everything else.
