LIVE NOW

au-mosaic.shop

Your own domain. Your WhatsApp behind every button. Dark, the way you like it.

THE OBJECTIVE

More enquiries. Deeper trust. Fewer repeated conversations. The digital foundation for everything mosaic in Nigeria.

PHASE 1 · THE WEBSITE, DELIVERED

- **Product catalogue** the full stock list
- **Pool construction pages**
- **WhatsApp on every product**
- **Google search optimization**
- **Mobile-first, dark-first design**
- **Your story and showroom**
- **Trust pages** the gum cement rule
- **Contact, WhatsApp and call**
- **Traffic analytics**
- **Launch and indexing**

PHASE 2 · THE DASHBOARD

The back office: CRM and customer database, inventory with stock warnings, warehouse records, sales tracking, delivery management, invoices.

THE DOMAIN

au-mosaic.shop is purchased, connected, and live. Dyrane bought it upfront, our commitment to this partnership; the cost sits inside Phase 1. Premium upgrade to au-mosaic.com available, the .shop investment credited.

THE INVESTMENT

PHASE 1	Website design and launch	NGN 250,000
PHASE 2	Business operations dashboard	NGN 500,000
OPTIONAL	Monthly care: updates, photos, changes	NGN 25,000 / month

THREE WAYS TO SAY YES

A

Full payment

NGN 250,000 at start.

B

Installments

40% to begin · 30% at launch · 30% thirty days after launch.

C

Growth partnership

Dyrane recovers the cost from an agreed share of the additional revenue the platform generates, until the project value is reached. Terms agreed together.

THE NUMBERS

Modest assumptions for a 10-year importer with its own factory line. Your order book replaces them in week one.

REVENUE STREAM	EXTRA WINS	PROFIT PER WIN	MONTHLY IMPACT
Retail tile orders	6 / month	NGN 60,000	NGN 360,000
Trade and wholesale	2 / month	NGN 250,000	NGN 500,000
Pool projects	1 / quarter	NGN 2,000,000	NGN 660,000
Combined			NGN 1,500,000+

One month at these rates repays the website and the dashboard together, twice over.

And that is before wholesale container orders, where a single deal can carry more than all of this.

The quiet money stands: the site answers the repeated questions, the dashboard chases the debts.

IN 90 DAYS

More Google visibility. More WhatsApp enquiries. Higher trust. Vivid product presentation. Less time on repeated questions. Inventory ready to digitise.
